OBSERVATIONS:

During this inspection I was able to conduct an external walkthrough of the ranch without going into any structure that contained chickens due to the avian influenza. I was able to see that this ranch is being kept clean, and measures to mitigate fly activity have been taken including placing fly traps and removing manure within 72 hours.

RECOMMENDATIONS:

Once avian influenza risks have subsided, allow City of Yucaipa to conduct an internal inspection of the chicken structures.

ACTION TAKEN:

NONE
