"The City of Yucaipa and Kathy Sellers, on behalf of the group of residents known as *Save Yucaipa*, are pleased to announce that a settlement has been reached regarding attorneys' fees related to the 2023 recall lawsuit. With this agreement, the matter is now fully resolved.

While differences of opinion remain regarding the recall litigation, both the City and *Save Yucaipa* are committed to looking ahead rather than relitigating the past. We recognize that disagreements are a natural part of civic engagement, but we also acknowledge that all parties involved share a common goal: the well-being of our community.

We hope this settlement brings closure to a difficult chapter in Yucaipa's history and fosters an environment of healing and unity. As we move forward, we encourage all residents to join us in embracing one another as neighbors and working together constructively for the future of our great city."
