(Yucaipa, CA) – Local traffic safety on City streets will be the subject of an upcoming community meeting hosted by the City of Yucaipa via Zoom on Thursday, May 18, from 6 - 7 pm. The City invites you to attend.

The City of Yucaipa has used grant funds and local partnerships to fund 49% of its traffic improvement projects between 2002 and 2022. Most of these funds came from the Caltrans-administered Highway Safety Improvement Program (HSIP). Local agencies must prepare a Local Roadway Safety Plan (LRSP) to be eligible for HSIP grants.

This community meeting is a critical step in creating an LRSP. Staff will share traffic safety proposals and collision patterns on City streets over the last five years. Participants will be able to submit safety concerns for further study.

When complete, the LRSP will help guide the City's future traffic safety improvements.

Meeting Details:

Date and Time: May 18, 2023 6:00 PM – 7:00 PM
