Larva breeding on the ranch	X			
Emergency activities need to be implemented		YES	NO X	

RANCH IS IN COMPLIANCE	YES	NO X
------------------------	-----	------

OBSERVATIONS:

In this Inspection- There was spilled feed across several feed silos, and House 1 did not have replenished fly traps. Additionally, several houses cement entryways had a large accumulation of dirt, debris and feathers. Overgrown vegetation/tall weeds were also observed throughout the ranch.

RECOMMENDATIONS:

Replenish fly traps in all chicken houses. Removed spill feed around silos. Abate all overgrown vegetation throughout property. Keep cement entry ways of miscellaneous spilled fluids that will attract flies. Continue to keep areas outside of the chicken houses as clean as possible from manure and large quantities of accumulation of feathers. Continue, as much as possible, to avoid leaving open sitting water that will attract flies.

ACTION TAKEN:

RANCH OWNeR/MANAGEMENT NOTIFIED.

Biosecurity Measures Taken Yes X No
